

## PE Spill Containment Pallets

Keep the storage environment of oily and chemical drums clean, to effectively prevent and control possible liquid splashes, spills or pollution of spilled liquids.

Complies with the regulations of EPA 40 CFR 264.175 of the U.S. Environmental Protection Agency (EPA) and the regulations of Spill Prevention and Control Act (SPCC) as well as U.S. NPDES.

### Features

1. High-density polyethylene (HDPE) material, anti-UV, anti-rust, anti-corrosion, suitable for most chemicals
2. Anti-skid gratings, it will not rupture at full load, and the gratings are removable, easy for rapid treatment of liquid spill.
3. Help to keep ground dry, avoid slipping, falling accidents and the environment clean, ensure orderly storage and leakage prevention of oil drums and chemical barrels.
4. Using the injection molding process, ensure to have strong durability and firm structure. Thicker side border and central heavy duty structure can firmly carry fully-loaded oil drums, chemical barrels and other storage containers and equipment.
5. Prevent and control small spill and drips. Lower profile make chemical barrels closer to the ground and facilitate the loading, accessing and subdividing operations. A hexagonal drain hole helps to drain the liquid and avoid wasting. Most liquids are recyclable.

Capacity 200L drum	1	2	4
Spill capacity Gal/L	10/40	31/120	64/240
Load capacity Kg/m <sup>2</sup>	693	1361	2772
Weight (Kg)	8	22	36
Dimensions (HxWxD mm)	150x670x670	300x1300x680	300x1300x1300
